4% BLEACH

Bleach 4% is a chlorine activated bleach and sanitiser which may be used in a wide variety of cleaning applications. It can also be used as a vegetable Sanitiser in kitchen applications when diluted to the correct ratio.

Procedure:

Cleaning Bathrooms & Kitchens

Remove stains, mould, mildew, body fat & soap scum from hard surfaces

1. Dilute ½ cup (125ml) of BLEACH to 1 litre of cold water
2. Apply to surface to be cleaned and disinfected
3. Leave for a few minutes before rinsing with clean water.

For Toilets and Urinals

For cleaning and disinfecting around toilet bowl and seat

1. Dilute ½ cup (125ml) of BLEACH to 1 litre of cold water
2. Apply to surface.
3. Leave for 10 minutes before rinsing with clean water.
