## LIQUID SPARKLE

### Liquid Detergent for Automatic Glass Washing Machines

Liquid Sparkle is a concentrated blend of heavy detergents and specialty solvents combined with water softeners and scale inhibitors to provide maximum cleaning efficiency in all types of glass washing machines.

#### Procedure:

Liquid Sparkle is generally pre-diluted before adding to the tank. Mix ratios will be dependent on the type of glass washing machines. The following is a guideline only and may vary to suit individual machines:

- Aquamatic 1 part to 4 parts water
- Dishlex Undiluted
- Eswood 1 part to 3 parts water
- Johnston 1 part to 3 parts water
- Norris 1 part to 3 parts water
